The Region 29 Public Safety RPC meeting is open to the public. All eligible public safety providers in Region 29 may utilize these frequencies. It is essential that eligible public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs.

All interested parties wishing to participate in planning for the use of public safety spectrum in the 700 MHz band within Region 29 should plan to attend. The 700 MHz RPC Convener will provide additional information on how to access to the meeting via Microsoft Outlook. For further information, please contact:
